PROFESSIONAL SUMMARY

Data-driven operations leader transitioning into the tech industry with hands-on experience in automation, data analysis, and no-code application development. Proven ability to build solutions using Google Sheets, AppSheet, Power BI, and Google Apps Script that drive performance, reduce costs, and scale processes. Seeking roles in data analytics, no-code development, or BI to apply my skills in solving business problems through technology.

TECHNICAL PROJECTS

Cost Tracking App – AppSheet + Google Sheets + Apps Script

- Built a no-code app to track labor and material costs in real time.
- Reduced manual reporting by 60% and improved cost transparency for leadership.

Productivity Dashboard – Power BI

- Developed interactive dashboard for logistics KPIs (order accuracy, downtime, staffing).
- Enabled data-driven daily standups and reduced manual Excel work.

Health & Safety Hazard Tracker – Google Forms + Sheets + Apps Script

- Automated hazard reporting system, cutting report backlog by 87%.
- Notifications and trend analysis improved compliance tracking.

Portfolio Website

- Designed and published a personal website showcasing projects, skills, and resume.
- Built using HTML/CSS with responsive design principles.

TECHNICAL SKILLS

Data Analysis & Automation: Google Sheets, Power BI, Google Apps Script

No-Code Development: AppSheet, Google Forms

Web Development: HTML, CSS (Basic)

Soft Skills: Leadership, Process Improvement, Cross-functional Collaboration

PROFESSIONAL EXPERIENCE

GXO Logistics – Contract Packing Team Leader

Chorley | Sep 2020 – Present
